

Directly access to his profile and we can have guild/clan written below it maybe

We should be able to see people who are online/afk/busy like this
Green online
red afk
Orange busy / etc.

Not sure about this kind of widget yet
We could find alternatives

Newsfeed kinda style we can see peoples activity like this maybe

Recommendations

We can directly put a small version of gamer finder widget. We will obviously have it on the left too but a small version of it here could be nice.

We can maybe directly put a tournament related activities here. It could be little updates of the event calendar page too

Doğum günü ya da önemli bir kaç event'i buraya kaydırmalı şekilde koyabiliriz belki

Bugün
Özkan Taştan'ın doğum günü

Kendisine mesaj göndererek doğum gününü kutla !

ABOVE

Birthdays or maybe another important social activities could be put here
